# Our software

We present our two main management software solutions. These software programs are designed for small and medium-sized businesses, offering , ease of use, completeness, flexibility, and affordability.

Alongside all this, we offer a range of vertical management software specifically designed for particular industries.

# Competitive advantages

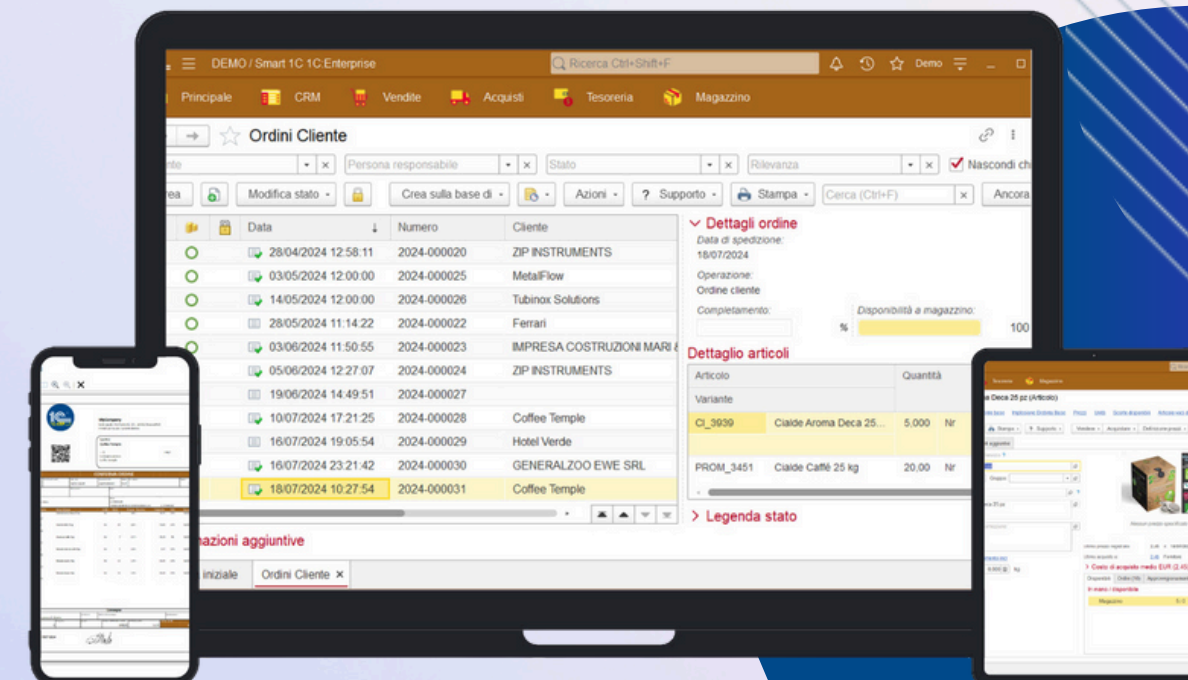

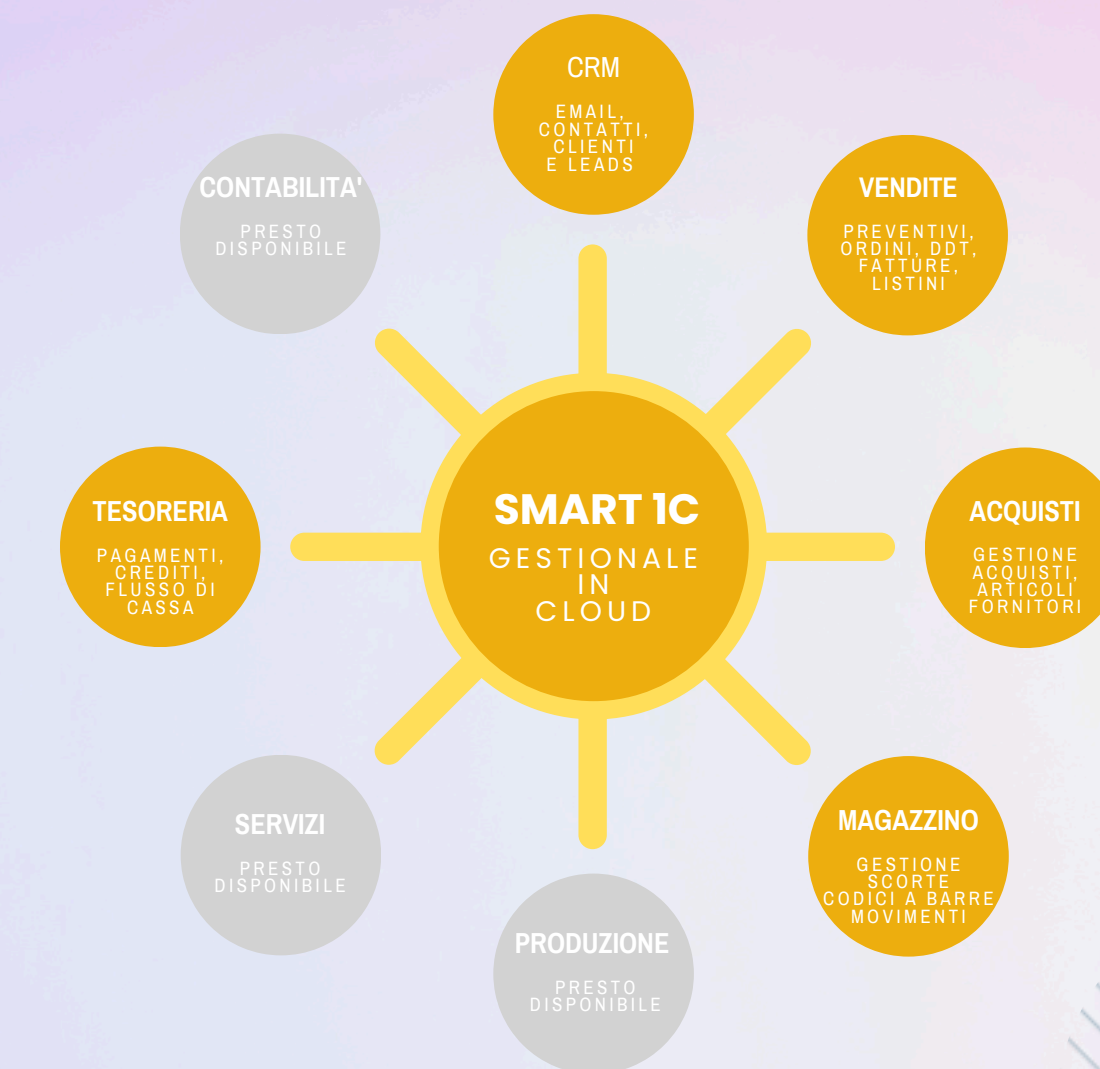

**Built on the powerful 1C platform, known for its flexibility.**

**Highly customizable and affordable pricing**

**Strong partner and reseller network for global reach.**

# Partnership Premium reseller

Official software resale with a discount from 30% to 45% off the retail price.

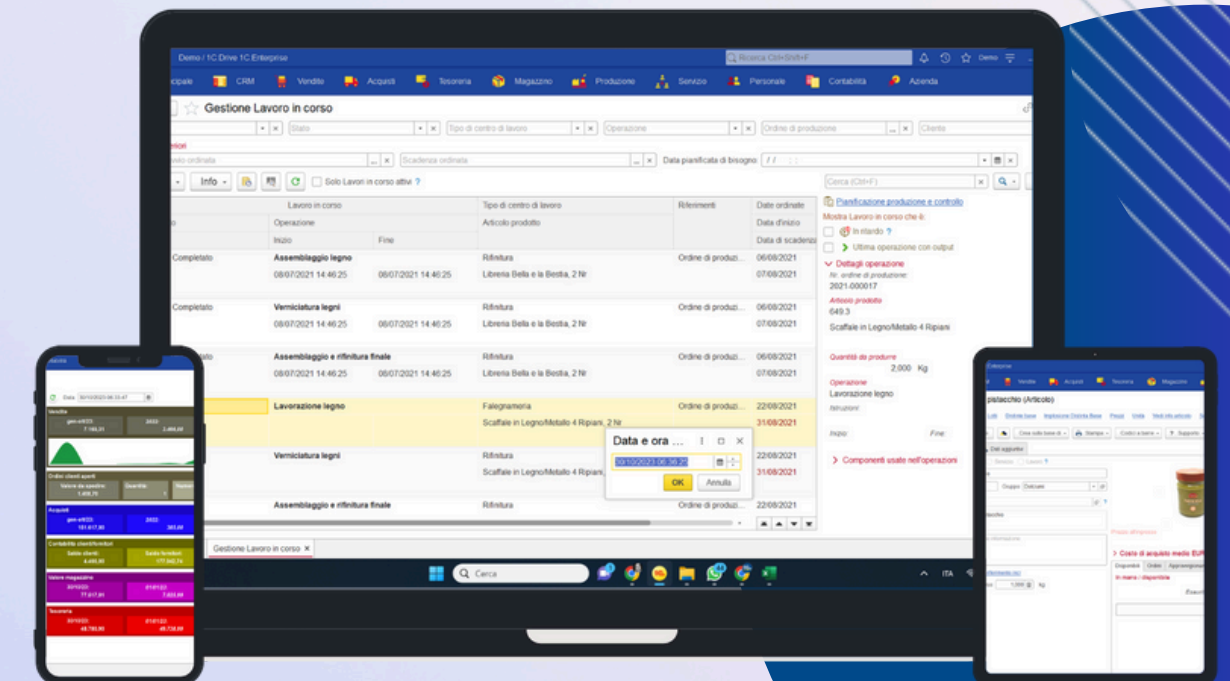

The partner provides services directly to the end customer without having to pay any % to 1C.

Commercial support to the partner and second-level support for all customers.

The partner resells and installs the solutions:

- Solutions: 1C Industry, 1C Company (with partner logo) and Other software (e.g. Advertising).
- Partner's commercial training
- Contract templates and design documentation
- Ticketing system
- Lead generation

# Partnership Solution reseller

The partner markets their own program built on the "1C Company" platform with their own price list.

The partner resells their own version of software based on 1C Company:

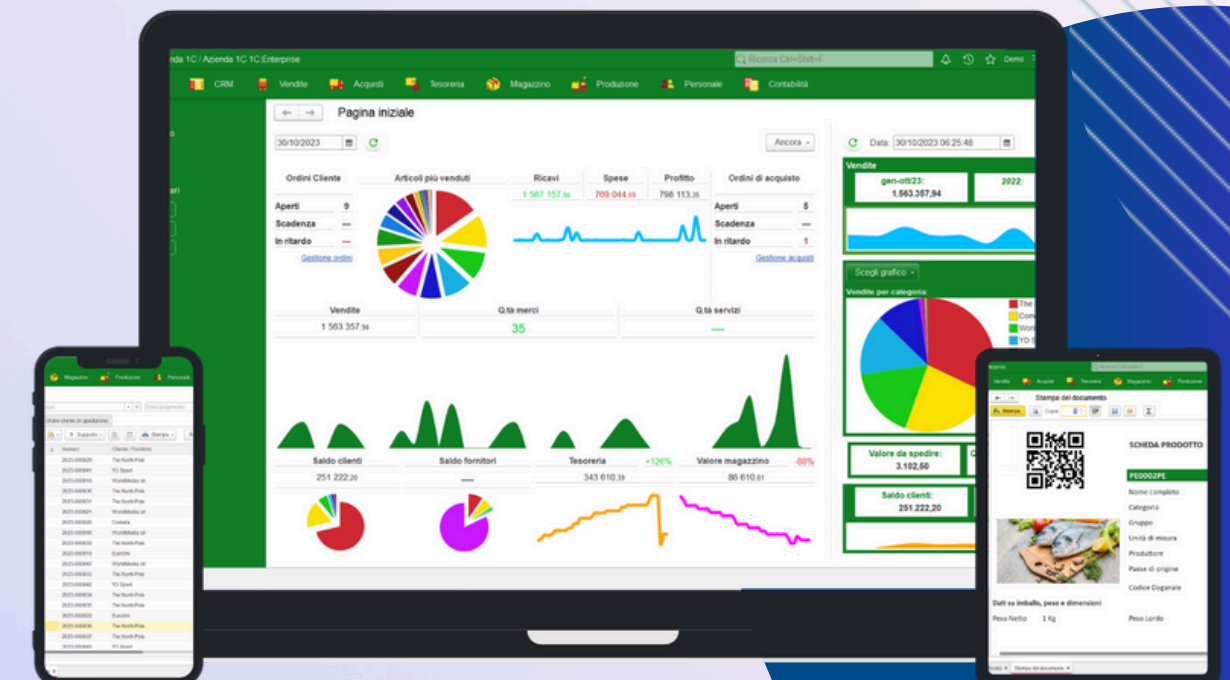

- Solutions: 1C Company (customized)
- Application development based on the sector in which the partner primarily operates
- Complete technical support for the customized program
- Ticketing system

The partner provides services directly to the end customer without having to pay any % to 1C.

Software customization with logo, functionality optimization, and integrations.

# Company' values

Clients are the center of our work. We provide them with efficient and constantly updated solutions. Our services aim to improve products and adapt them to client needs, rather than being profit-oriented.

We aim to provide our clients with the best software solutions to support their business and help them achieve their goals effectively. For this reason, our software is constantly updated, incorporating everything that today's technology has to offer in the field of management software.

We provide our clients with solutions that enable them to solve their small and large problems with maximum effectiveness and efficiency. We strive to be an added value for our clients, not a cost.
